HON. JOHN HAGGART IMPEACHED IN THE HOUSE.

Public Works' Clerks and Their Unlawful Gains—Deputy Minister Bradley in an Unfortunate Position—The Sawlog Duty to be Re-imposed.

Special to the TIMES.]

OTTAWA, Sept. 22.—A meeting of the Public Accounts Committee was held yesterday, when Mr. Somerville again proceeded with the investigation of the case against Horace Talbot and E. Dion, of the Public Works Department who, it had been shown, were in the habit of purchasing goods for their own use and getting false invoices on goods which were said to have been delivered to the department. It was shown at a recent meeting that several hundred dollars' worth of goods, comprising groceries and wearing apparel, had been purchased from A. C. Larose, an Ottawa merchant, some years ago. To-day it was shown by Charlebois, book-keeper for Larose, that in addition to other accounts proved at the last meeting there was another one of $172 for clothes to E. Dion, sold by Mr. Larose, and the account on the book was marked "T. B.," which meant "Talbot's Boodling," and identified as such.

A. P. Bradley, secretary of the Department of Railways and Canals, was next examined. He testified that his son had received $60 per month for eight months one year while he was attending college in Toronto, and which was charged to the department. Bradley said that he had the authority of the then Minister of the Department, the late John Henry Pope, to pay this amount during his son's absence. Mr. Trudeau, Deputy Minister of Railways, said he was not aware of the payment to young Bradley until the papers were asked for by the committee.

Mr. Gobeil, Secretary of the Public Works department, was recalled in regard to the case against Talbot and others. He said that until three or four weeks ago he thought he knew nothing of Talbot's transactions, but when the vouchers and accounts came before him he saw that he had signed one of the checks. There was nothing that appeared on the face of the check, or anything connected with the account, to be wrong. Mr. Baillarge was the deputy minister and signed the other checks. There had been an examination made into the large amount of spittoons and glassware in the department. The accountant made the examination, but he could not implicate anyone, so the matter dropped. Gobeil, as well as Dion, asked leave to deny a statement that appeared in the American press and was copied into Canadian papers, that both of them were boodlers. The privilege was accorded them.

James Ashfield, merchant, J. R. Esmonde, hardware and stove merchant, and S. Shaw all sold goods to Talbot, but they understood they were for the Government. Some of the goods might have been delivered to Talbot's house. All of them remembered sending to his house furnishings for rooms, which they were told were to be used for the Government translators. It was afterwards learned that Talbot's rooms were leased by the Government for the translators for a short time. What became of the furnishings of the rooms was not known. J. Saureil, a messenger with Larose in 1885, testified to delivering goods to Talbot and Dion.

Talbot appeared before the committee and was allowed to harangue and abuse the Liberal members for a solid half hour, and neither the chairman nor any of the ministers ever called him to order. He presented a couple of receipts for moneys he paid Larose in 1888. Charlebois, Larose's bookkeeper, testified that these accounts had nothing to do with the one before the committee. Larose testified that in about a month he had borrowed from E. Dion $2170, mostly Government cheques. They were made out to different public works going on in the country.

It was said here yesterday that Dr. Bergin intends moving an amendment to the report of the committee on Privileges and Elections after the minority report is disposed of, which will censure Sir Hector Langevin.

The debate on the report of the committee on Privileges and Elections on the Tarte charges commenced yesterday. Girouard, chairman of the committee, carefully reviewed the evidence. He cited the course pursued by the Liberal Minister of Public Works regarding the changes in the contract, by which the country had to pass thousands of dollars more than the original contracts provided. Tarte followed in a speech of three and a half hours' duration. He went carefully over the different charges, using strong language against Langevin. The debate will last three days.

It is reported that the Government intends to reimpose the export duty on logs. A deputation of lumbermen will shortly wait upon the Government, to urge that this step be not taken, as it would imperil their trade.

Haggart Impeached.

OTTAWA, Sept. 22.—In the House this afternoon Lister rose in his seat and impeached Hon. John Haggart, showing that he was financially interested in contracts, especially section "B" of the C. P. R., largely bonused by the government, and on which large sums of public money were spent from time to time. He charged that Haggart shared in the proceeds all the time these works were going on under the names of Manning & McDonald and Manning, Shields & McDonald. He asked for a special committee to investigate the charges, and gave the names of the witnesses, so that there would be no delay. The witnesses Lister named were Hon. Frank Smith, John J. McDonald, T. Trudeau, John Shields and Alex. Manning. Haggart will reply to-morrow.

Passports to Alsace-Lorraine.

STRASBURG, Sept. 26.—An imperial decree has been issued, modifying the passport regulations for Alsace-Lorraine. The decree provides that after September passports for entering Alsace-Lorraine shall be required only from the military on active service. Foreigners staying in the Reichsland beyond 24 hours must report to the police under penalty of expulsion.

POPE LEO XIII.

The Aged Potentate of the Vatican, Now 81 Years Old.

Leo XIII. is 81 years old. He was born in Carpinets, Central Italy, March 2, 1810. He belongs to an old patrician family. His name is Gioacchino Pecci. He studied at Viterbo, and at the Col-

legio Romano was graduated in law and theology. He was a great student and admirer of the works of St. Thomas Aquinas. Pope Gregory XVI. in 1837 made young Pecci his chaplain. He was elected Bishop of Damietta in 1843, and appointed Nuncio to Belgium in the same year, where he remained until 1846. Then he became Archbishop and Bishop of Perugia. Pius IX. raised him to the dignity of a Cardinal, and he was elected Pope February 21, 1878. Although a strong advocate of the temporal dominion of the Popes, Leo XIII. is opposed to radical measures and extreme views. He has literary tastes, and practically edited a great part of the records of the Papal Court. Naturally there is always a certain amount of friction existing between the Quirinal, representing the temporal and secular power in Italy, and the Vatican. This is why there are such frequent reports of the Pope's being about to leave Rome. Of late years Leo XIII. has been in great request as an arbitrator in international disputes. His decisions have been invariably given with judgment and fairness. The Pope has a gentle and very winning manner. He has been in ill-health for a long time, and in Rome and elsewhere there is much speculation as to his successor.

NEW WESTMINSTER.

The Rowers Quarrelling—McLean Insolent—The Exhibition Prospects Bright.

NEW WESTMINSTER, Sept 22.—A strong wind this morning prevented the oarsmen practicing. The Victorians wanted to get out with a four-oared practice, but a heavy sea was rolling. The double scull race between Murray-McLean, and Dognan-Martin was postponed till the river moderates. McLean republished an insulting challenge to Hanlan in last night's Columbian. Hanlan is mad about it, and says it is nothing but a dirty insult. Murray made threats to get even with O'Connor before the latter leaves town. The general opinion here is that if Murray attempts to carry out his threat he will spend some time in the hospital.

The steam yacht St. George arrived from Vancouver this morning and was moored in midstream. She was gaily decorated with bunting and will stay over the exhibition.

The Wenaplie rifle team camp up this morning for a match with Westminster riflemen.

The weather was beautiful to-day, the sky clear with a fine brisk southwest wind. The mud is drying up, and the prospects are excellent for a successful exhibition. The exhibits are being placed to-day in the building, and the scene is one of great bustle and activity. Farmers from up the river are coming in droves. The Indians, also, with their bands of music, are present in large numbers.

The council adjourned last night, there being no quorum, the first time this year. Half of the aldermen were over to see Sarah.

There is no prospect of the tramway running during the exhibition. The hitch between the council and the company is still on. The big cars for the inter-urban service arrived to-day.

The Local Sugar Question.

VANCOUVER, B.C., September 21.—At Saturday evening's meeting of the Trades and Labor Council, the following resolution was carried: "Whereas it has come to the knowledge of the Council that Chinese made sugar is being imported into this city and province to the possible serious injury of an important local industry, by reason of the conditions of manufacture causing a most unequal competition. Be it therefore resolved, that we recommend the members of the various unions herein represented, and the public generally, to buy only the B. C. Refinery Company's manufacture, and to deal by preference with those that sell exclusively that brand, as the members of this Council pledge themselves to do; and be it further resolved, that we invite the co-operation of the working men of the other cities of this province for the encouragement of an important provincial industry and the protection of white labor."

The Sea in the Desert.

SAN DIEGO, Cal., Sept. 21.—Robert Evans, an experienced prospector, has just returned from the Colorado desert. He was nearly around the Salton sea, and says that the water is about holding its own in spite of the enormous evaporation. He believes it will be largely augmented during the coming winter, and become a permanent body of water.

GREAT BANK ROBBERY.

THE LONDON AND WESTMINSTER VICTIMIZED.

Something Like a Million Dollars Stolen—A Parcel of Bills Abstracted While the Officials Were Busy in Another Apartment.

LONDON, Sept. 22.—The banking world was startled to-day by the announcement that the London & Westminster Bank, limited, No. 41, Lothbury, E. C., an important establishment having over 15 branches in the metropolis, has been robbed. The money stolen consisted of bills remitted from the country banks. The thief or thieves must have watched closely for an opportunity to accomplish the robbery, and to have gained access to an apartment near the main entrance to the bank. This apartment was easy of access from the street, and the parcel of bills is supposed to have been stolen while the bank officials were busily engaged in another apartment in going over the accounts of last week's settlement. Both Wm. Astle, the town manager of the bank, and H. F. Billinghurst, the county manager, decline to make a statement for publication as to the actual loss incurred by the London and Westminster bank, but it is currently reported that the amount stolen is not less than $750,000 dollars, and that it may amount to as much as $1,250,000.

Politics in Britain.

LONDON, Sept. 22.—At Cambridge tonight, Mr. John Morley said the general election would be a straight fight between the Liberals and the Tories, and that there would be no dissenting Liberal party. Mr. Morley disputed, in succession, the claims on which the Conservatives would make their appeal to the country. He condemned the indefinite and persistent occupation of Egypt, and the methods of government applied to Ireland, the local government and free education measures, which were merely skeleton bills. The Irish land purchase bill was a measure of destructive rather than constructive statesmanship, and the extreme safeguards and restrictions which it was predicted would accompany the Irish local government bill would only prolong and embitter Irish controversy in parliament. Although he differed from the majority of the Labor Congress at Newcastle on the eight hour question, he hailed the discussion with hope and satisfaction, having every confidence in the soundness of the ultimate judgment of the workers of the country to improve their own welfare. He advocated village councils to manage all local affairs. Before undertaking social reforms, however, the Liberals must fulfill their home rule pledges.

Sir John Gorst's Radicalism.

LONDON, Sept. 21.—Sir John E. Gorst, the political secretary of the India office, in an interview to-day upon the English land question, declined to commit himself to any definite plan for its settlement. "To remedy, however, this grievance," he said, "something must and will be done, or revolution is certain, but I mean the people will demand the possession of the land they live upon. They have now the power to do so, and they are dissatisfied with their present lot, consequently they will have things altered." Considerable attention has been attracted towards Sir John Gorst, who is a member of the Royal Labor commission, since August last, when in a remarkable outburst of plain speaking in the Commons, he expressed contempt for certain members of the ministry. His present utterances would seem to indicate that the appointment of Sir James Ferguson as postmaster general has caused him to break out in a new direction. The Star to-day predicts that he will be a leading "Tory-Democrat," and intimates that he is preparing to bid high for the rural vote.

WRESTLING.

A "FAKE" AT NANAIMO.

NANAIMO, Sept. 21.—The wrestling match between Beecher and Stewart, took place in the Opera House on Saturday night and was an easy victory for the former. It was reported the match was a "fake" and great indignation is felt over it in this city. A TIMES representative gleaned the following facts of the case:

While the match between Clarke and Harrison was taking place a couple of weeks ago, a few men approached the manager of the house and one of them, named Beecher, offered to wrestle either of the contestants for five dollars, as he claimed he was "broke" and wanted to make a stake. The manager declined to listen to the proposal, as he had nothing to do with it. Beecher claimed he could throw any middle weight in the city, and the manager offered to telegraph to McLeod, who was in Victoria, to come up and make a match. The next day's train brought McLeod to the city, who after hearing the proposition of Beecher to wrestle Stewart invited him to the gymnasium, where both men were stripped and the merits of the stranger were tested, but not before he came near being done for by McLeod, accidentally. McLeod then informed Beecher that he was too good for Stewart, and so he would not make a match. Beecher seeing all chance of recruiting his fallen fortunes escaping him suggested that the manager and McLeod should make a match with some of the Northfield men for a few thousand astle and he would scoop them of every cent they had, as he was dead broke and had to do something. This proposal was rejected as they stated they were not going to risk their money on a stranger, but advised him to challenge some one for a few dollars, which they would put up for him, and he could make a stake that way. Beecher then offered to allow Stewart to throw him if they would put up a blind purse for $100 and give him a third of the gate receipts. After a great deal of persuasion McLeod and his friend accepted the proposal and the match was announced. Now comes the sequel. Beecher saw his chance, with the assistance of a few friends, of making a big stake by turning the tables, and just as the match was about to take place he stepped to the front and addressing the audience said: "Gentlemen, I wish it to be understood that the winner is to take the stakes and the whole of the gate receipts and if Stewart has any 'kick' to make he can get up and state so." Stewart saw he was sold and had no alternative but to acquiesce. Beecher won the two straight falls, and then demanded the stakes and gate receipts, although he had not put up a cent of the stake money. The manager refused to hand over the receipts. Those who are not acquainted with the proposition made by Beecher look upon him as a martyr to the duplicity of McLeod and his friends. The affair has caused quite a sensation here, and nothing else is being talked of. Had Stewart not warned his friends in time they would have dropped a big sum on the result.

THE OAR.

Geo. Watson, one of the contestants in Saturday's race for the championship of the James Bay Athletic Club, has gone to Westminster to take part in the senior single scull race for amateurs. The prize is a gold medal.

De Brissay has refused to accept the Helmcken cup, the prize offered for the winner of Saturday's race. The race being unsatisfactory to both sides, he thinks it should be rowed over again, as does also Mr. Helmcken, who offered it.

A SQUARE RACE EXPECTED.

"Dutch and Stevenson" said Mr. T. Jones, the boatman, speaking of the Australians this morning, "will no doubt make a good showing at New Westminster." They are here on their own account simply, are not backed by their clubs, and are consequently dependent on their earnings. It is thus pretty plain that the visiting oarsmen have not gone up to New Westminster to be beaten easily. Dutch in his race in Australia gave Sullivan five seconds and was beaten only by two. He then challenged Sullivan over again, but the latter would not accept. Since then Sullivan has challenged Stansbury for the championship of the world. If Dutch is a man of this class O'Connor and Hanlan will have all their work cut out. Another significant fact is that the stakes in the Peterson race are for $1000, open to increase before the race. If Dutch comes out well in the Westminster regatta, the probabilities are that these stakes will be much increased.

QUOITS.

The wet weather during the past week has not dampened the quoiting at Spring Ridge. George Fairbrother promised a good thing, which came off in the thorough style customary at the Lion Brewery grounds. Captain Geo. Wester, of the schooner City of San Diego, threw down the glove to Skipper Sieward, and a match for a decent stake was made to play at 18 yards, 25 yards, with three pound quoits. At the commencement of the game Captain Wester did not exhibit his quoiting legs to great advantage, mistaking the bearings of the iron peg altogether, but after getting a little warmed up to it, he led Captain Sieward a good dance to the finish, winning by 7 points.

BASEBALL.

The James Bays and V. A. C. teams will play a match at the exhibition grounds on the opening day of the fair.

Arrangements are being made for a game at the Caledonian Park Saturday next.

The fight for the championship of the Northwest League has now narrowed down to two clubs, the Spokanes and Portlands. The last series between the two clubs is now taking place. Spokane defeated Portland on Saturday by 7 to 3.

FOOTBALL.

THE CANADIAN-AMERICAN TEAM.

A cable dispatch from Middlesboro, Eng., says that the Canadian-American bootballers were, on Saturday, defeated by Middlesboro, by two goals to one. So far the team has won only two matches, the first with the Ironopolis team, which also has its home in Middlesboro', and the other with the Lincoln city team.

Recent Happenings Reported From the Eastern Provinces.

Rev. Canon White, of Iroquois, died of apoplexy, aged 57.

Grand Trunk Baggageman Clark was drowned at Kincardine.

Beaugrand has written to the Press denying the rumor that La Patrie has been sold.

Canadian Pacific sold in London on Wednesday last at 93½, the highest point yet reached.

It is rumored that Rural Dean Carey, now in England, has been appointed Dean of Ontario.

Thos. Windross, a farmer from Port Robinson, was run down by a street car in Toronto and received probably fatal injuries.

In dismissing the liquor convention at Halifax, Judges Weatherbee and Ritchie expressed the opinion that the Provincial Act was ultra vires.

The Montreal exhibition was formally opened on Sept. 17 by Hon. Mr. Joly, representing Mr. Mercier, who was unable to be present owing to serious political complications.

The Dominion Line's new steamer Labrador, which left Montreal on the morning of September 9th, arrived at Liverpool on the 17th, making the fastest passage on record from Montreal.

The position in the strike at Hull is but little changed. Building is stopped at Eddy's big mill, as the masons and teamsters are afraid to draw the lumber. Pain's mills are stopped, and Thackeray's practically so.

Oliver Cummings, of the firm of Wm. Cummings & Sons, extensive dry goods merchants of Truro, N.S., was found dead alongside the Intercolonial railway track at Salt Springs, Cumberland county. A post-mortem examination of the body revealed fatal injuries to the head.

Eleven hundred dollars were stolen from a safe in the office of Burr Bros., furniture manufacturers, Guelph. W. Toul had drawn the money to pay the hands, and deposited it in the safe. He went to dinner, locking the office but not the safe, and when he returned he found both doors open and the money gone. A search of the employees was instituted, but no money was discovered.

Messrs. McHugh Bros. have been heavy sufferers lately by the loss of a large number of young unweaned colts through a sickness which puzzles the veterinary surgeons to say what it is. Until two weeks ago all the horses on the range were perfectly healthy. Mr. Felix McHugh had gone over the range and then had come to town on business. He had not been here over a couple of days when he received a letter from the ranch telling him that a number of the colts were dying. He immediately returned, and when he saw the ravages which the disease was making he went at once for a veterinary surgeon. He obtained one after some trouble, but the disease, the like of which has not attacked horses heretofore in the west, was beyond his knowledge. He pronounced it rheumatism, but Mr. McHugh cannot accept that theory. Mr. McHugh says the disease is like blackleg in cattle, producing the same effects but carrying the animals off much more rapidly. It is only a few hours between the time it attacks the colt and the time the animal dies. As the disease is confined entirely to suckling colts, one theory advanced is that the mares have been feeding near places where poisoned carcasses have been thrown to kill cayotes. This, however, does not commend itself to those who have looked into the matter. It would be a good idea if the government veterinary surgeon would direct his attention to this matter.—Calgary Tribune.

The New Postmaster-General.

LONDON, Sept. 22.—Sir James Ferguson, Political Secretary of the Foreign Office, has been appointed Postmaster-General, to fill the vacancy created by the death of Henry Cecil Raikes. Sir Jas. Ferguson, K.C.M.G., was born in 1832 and was at one time a member of the Grenadier Guards. He was wounded at the battle of Inkerman. From 1868 to 1872 he was Governor of South Australia, Governor of New Zealand from 1873 to 1875, and Governor of Bombay from 1880 to 1885. In the latter year Sir James returned to England and was elected a member of Parliament for Northeast Manchester. Since that time he has been continuously in Parliament. He married Lady Edith Christian Ramsey in 1859. In 1871 Lady Edith died, and in 1873 Sir James took as his second wife a daughter of John Henry Richman, of South Australia. This lady died in 1882. Sir James had four children by his first wife and one by his second.

A Trifle Fishy.

JACKSONVILLE, Fla., Sept. 22.—Saml. W. Thornton and Eva Jewell, his wife's sister, of Brooklyn, N.Y., are in this city alive and well. They were the couple who one evening mysteriously disappeared from Coney Island. They had gone bathing and, caught by the outgoing tide, were swept out to sea. Both of them are good swimmers, and they managed to keep afloat till picked up by a sailing vessel bound to this port. Be it as it may, both man and woman are here, and in good health. A message was at once sent to their brother in Brooklyn, asking for money to purchase clothing and bring them back home. The story is one of the strangest ever heard of, and the marvellous escape of the couple is the sole topic of conversation here.

Children Cry for Pitcher's Castoria.

An Officer in Disgrace.

NEW YORK, Sept. 21.—The Herald's special from Leavenworth, Kansas, says: Lieut. James G. Dodge, 14th Infantry, has been absent from his post for ten days, and it is believed that he has deserted. Since his disappearance it has been discovered that his pay accounts for August were duplicated. The Commercial bank of Port Townsend paid him the first time, and on the last day of August he was paid by the paymaster in Leavenworth. This was discovered on the arrival here of the first bank's vouchers, which he had neglected to endorse. They were returned to the bank endorsed by another officer, but suspicion was not aroused until his absence from here beyond the expiration of his leave. The paymaster at Vancouver, Wash., telegraphs that he has paid the August vouchers for Lieut. Dodge to the Commercial bank. During the week his father arrived here from Hastings, Minn., and was terribly shocked to learn of his son's illegal absence and of the duplication of the accounts.

The New Oklahoma Boom.

GUTHRIE, O. T., Sept. 21.—From early this morning the streets of this town have been blocked with wagons, horses and people, men, women, boys and girls scrambling to take part in government land entry. Everything is wide open. Liquor is plentiful, and the gamblers are here with their outfits. Governor Steele will go to the county seat, named Tecumseh. The intention is to clear the town, and with a signal let the race for town lots commence. Trains continue to arrive, bringing people anxious to secure homes. The men in line before the land office are still there, determined to make entry. Hotels, printing offices, stores and shops are taxed to their utmost capacity. Some establishments, especially those of the newspapers, are seriously inconvenienced on account of their help leaving to join in the race.

Shot by a Chicken Thief.

ST. MARY'S, Ohio, Sept. 21.—News has just been received here of a cold-blooded murder at St. John's, a picturesque valley among the hills, 16 miles east of this city. The murdered man is Captain Wm. Herring, the postmaster of St. John's. At about 1:30 o'clock last night Capt. Herring was aroused by some one stealing his chickens. Hastily donning his clothes and taking a revolver, he went to investigate. Soon his wife was startled by hearing two pistol shots in quick succession. She called a son, who hurried out, followed by his mother and sister. As they reached the chicken house they were horrified to find Mr. Herring lying dead, with a bullet hole in his breast and his pistol grasped in his hand. A resident of St. John's who bears a bad name and who was seen running through a neighbor's field soon afterward, is suspected.

Stunning Blow to Turkey—Revolt in Arabia Against the Sultan.

LONDON, Sep. 22.—The news of the capture of Sana by the rebels in Yemen, says a Constantinople dispatch, is almost a stunning blow to the Sultan, who for weeks past has been plunged in anxiety over the situation in Arabia. Western Europeans are hardly capable of appreciating the Sultan's feelings on this subject, but to him the fate of Arabia is of more importance even than that of Constantinople. Should he lose control of the holy cities of the Mohammedan faith, he would be divested of all prestige, and become an object of contempt and abhorrence to his subjects. His anxiety regarding this matter is so strong that it has nearly driven him insane. Sana is the key to Yemen, and the loss of it is a most overwhelming blow to Turkish supremacy in that rich and fertile province, and may lead to the loss of all Arabia. That country now contains several enemies who ignore the authority of the Porte, and if these should unite against Turkey the Sultan would have a difficult war on his hands. The Turkish troops in Yemen went there without provisions or money, with orders to live on the country. They won some successes at first, but probably disheartened by their own condition, they appear to have lost ground. Should Arabia be separated from the Porte, the religious passion is such, that it would in the opinion of the Europeans at Constantinople, imperil the life as well as the throne of the Sultan.

GORST BECOMING A LIBERAL.

Sir John Gorst has cast a bombshell into the Conservative camp by his utterance on the necessity of making popular the ownership of the land. The favorite Tory remedy for overcrowding is emigration. While the Liberals have never come out boldly in favor of the division of the soil among the people, and the multiplication of small owners, they have claimed that emigration was not the proper remedy, and that there was room enough in England for Englishmen. Now, Sir John Gorst dares to say what the Liberals have hinted at, that the private parks and preserves must be cut up as homes for the people, and that the people be given a chance to become owners. If Sir John Gorst remains in the service of the Tory cabinet, it is only because they are afraid to drop him out.

AN ALADDIN-LIKE PALACE.

The German Empress has been having a delightful time at Saal, in the Aladdin-like abode called the Orangery Palace. The state rooms are two large chambers united by a spacious rotunda, with a canopy over two thrones. The chief colors are grey, green and gold, and harmonized with beautiful effect. The private rooms for the occupation of the Kaiser and Kaiserine when there, are magnificently decorated with paintings on the walls and ceilings, vases and statuettes, and at night the interior and exterior of the palace are flooded with electric light.

THE KAISER'S HUNTING BOX.

After the launching at Stettin of the two ironclads, the Kaiser will, about the end of the month, proceed to East Prussia, partly for some shooting and partly for the maneuvres of the troops stationed there. The Kaiser has named the hunting box which he has built there, "The Hunting Box Rominten" after the name of the villiage in that neighborhood. The box is built and furnished entirely in the Norwegian style except that the carpets and some other equipments are from England. There is noting from France.

INTERIOR ITEMS.

Notes of Interest Taken From the Columns of the Inland Papers.

The Okanagan correspondent of the Sentinel says that Capt. Vidler and Mr. G. Appleton returned on Sunday from their trip through the Coldwater. They travelled from Monashee down Kettle river for a considerable distance and then struck out over the high divide between the main stream and the north fork, which lies to the east. They reached the headquarters but found it difficult work with their six horses, there being no trail of any kind. Here there is an elevated plateau, the timber of which has been burned off. They saw a number of cariboo and many bear signs, but the latter are now down on the swamps and hard to get. There are countless herds of deer in the vicinity. The fall of the river for the first 20 miles below the "bar" is very rapid, and, according to Mr. A., there is quite an extent of good land there. He has prospected on the creek for the past six years, and travelled down in a boat as far as the canyon, north of the mouth of Rock Creek. The maps of the district, he states, are extremely incorrect. Capt. Vidler left again on Tuesday, accompanied by Dave McDougall, in search of an enormous grizzly which he saw last month up Harris creek. He has some pretty paintings and sketches of the mountain scenery.

The new steamer Columbia is so badly disabled that her owners have thought it best to haul her up on the ways at Revelstoke and put her in thorough repair. New keelsons and hog-chains will be put in, and the hull otherwise strengthened. She will not be repaired in time to get her down to the lower river this fall, and the Lytton will be run between Robson and Little Dalles as long as practicable this winter. The Nelson will continue to run on the Bonner's Ferry route.

McKay & Co.'s sawmill, one mile west of Griffith Lake, was burned to the ground on Monday night of last week.

The Silver King is looking up, after a period of extreme depression; the cross-cut driven from the bottom of the shaft has encountered a vein of ore—the second within 50 feet—which is said to be of high grade, consequently the owners are shaking hands with themselves.

The oldest son of Mr. M. McCarty, of Lac la Hache, met with a serious accident on Saturday last. He was riding a wild horse, which threw him and he fell, striking his head heavily on the ground, rendering him unconscious. Dr. Samson, who happened to be at the 134-mile post, was called in and did all he could, but his hurts are serious.

A mineral spring, the water of which is strongly impregnated, has been discovered on the property of Mr. J. W. Mackay, near Kamloops.

Grouse is very plentiful on the Thomson river.

The price of wheat has been raised by the Columbia Milling Co., Enderby, to $25 for both fall and spring wheat.

The big strike in the Lardeau is holding out well. Several hundred tons of rich ore are in sight, with more to come.

Tascott Again.

NEW YORK, Sept. 21.—The Herald's Chicago special says: A report was received here to night from what is considered a good source to the effect that Tascott, the alleged murderer of Millionaire Snell, is desirous of getting back to Chicago, and that negotiations to that effect are in progress. The report states that Tascott is now with the Turtle Mountain Indians.

Angry Mob at a Bull-Fight.

MARSEILLES, Sept. 21.—At a bull-fight yesterday the spectators, becoming displeased with the performance, tore up the seats and set them on fire, threatening the destruction of the whole building. A strong force of police finally cleared the circus and put out the fire; not, however, before the building was partially destroyed.

A Victory in Manitoba.

We favor our readers to-day with the following extracts, selected from a letter which we recently received from a gentleman in Winnipeg, Manitoba. He has travelled extensively over the whole province, knows the country well, and is therefore in a position to speak from experience. He has had ample opportunity of becoming thoroughly acquainted with the best druggists, who have not hesitated for a moment in giving their opinions when requested to do so. Our correspondent says: "I have been over this province several times, and the more I see of it, the more do I recognize its immense possibilities. It must become the granary of this northern continent, and supply its inhabitants with food. Its people are hardy, thrifty, industrious and healthy, and the climate of the country is in every way conducive to good health and longevity. There is no country in the world of the same population which can show as good a health record. I find the people in the city, towns and country districts have a holy horror of the hundreds of common patent medicines and preparations so extensively used in the east. I cannot say that in this favored agricultural land they are entirely exempt from ailments. Its men and women, like their eastern brothers and sisters, are often, owing to overwork of body and brain, rendered weak, nervous and irritable. I have met with such cases, and have had occasion to come in contact with the dyspeptic, and those whose digestive vigor had become sadly impaired, and others suffering from complicated liver and kidney troubles; but I invariably found that one great remedy was used, and that become exceedingly popular owing to its grand healing and renovating properties; I refer to Paine's Celery Compound. All other boasted preparations were eschewed and considered as useless. I became somewhat interested, and was curious to know why this should be, and asked the opinion of several druggists of high repute. By them I was told that such a feeling really existed throughout Manitoba, and had Paine's Celery Compound was indeed the great home remedy whenever a reliable medicine was wanted. These druggists spoke to me of most remarkable cures it had effected in their districts, and predicted for it a great future."

We may here inform our readers that Paine's Celery Compound to-day is quite as popular in the older provinces as it is in the Northwest, and continues to do its good work to the joy and satisfaction of all.

A QUARTER OF A CENTURY AGO
There settled in Baker county, Oregon, near what is now Baker City, a man who has since become identified with the resources and development of that country. This man is no other than Mr. John Stewart, one of the wealthiest and most influential citizens in the county. In a recent letter he says: "I had been suffering from pains in my back and general kidney complaint for some time, and had used many remedies without any but temporary relief. The pains in my back had become so severe that I was prevented from attending to my work and could not move about without the use of a cane. Hearing through a friend, of the wonderful cures effected by Oregon Kidney Tea, I was induced to try a box, and from that very first dose I found instant relief, and before using half the contents of the box the pains in my back entirely disappeared. I have every faith in the virtues of the Oregon Kidney Tea, and can conscientiously recommend it to my friends. I would not be without it for anything."
Oregon Kidney Tea cures backache, incontinence of urine, brick dust sediment, burning or painful sensation while urinating, and all affections of the kidney or urinary organs of either sex.

NOVEL AND NEW.
THE CANADIAN CO-OPERATIVE Supply Co. is the name of a new firm starting up to do business in the Belmont Block, No. 60 Yates street, P. J. Nolan, manager. Their plan is the co-operative system, a plan that has met with great favor in Canada and the United States. It took so well in Chicago that a large watch factory adopted this method entirely to sell their watches. The plan is simply this:—They have a contract whereby a certain number of persons agree to co-operate together for the purpose of purchasing watches, clothing, etc., agreeing to pay $1 per week for so many weeks, unless they are released from the payment of any part of it by reason of having the article they subscribed for delivered to them. The contracts are placed together each week and a club member only draws out one contract, and the article is delivered to the member whose name appears on the contract. No more payments are required from him; he then drops out of the combination and a new one takes his place. se21-3t

I AM A MAN

"I have been treated by doctors, who had long lists of so-called cured patients, but they could not reach my case, and hope had been murdered in me by fair promises, but on first application of your magical appliance, hope and confidence came flocking in stronger than the combined powers of the four winds. I knew then that you would cure me, and now that I am a man and well again, I cannot thank you sufficiently for the cure. So again I say, use my name as reference whenever you wish. You nor any one else cannot use words too strong to express my sentiments in favor of so wonderful a treatment as that given by you."

THE SEALING QUESTION.

The London Times has recently been paying attention to the Behring Sea question, and does not hesitate to endorse the Canadian view. Here is an extract from a recent editorial on the subject:—

It is unfortunate that the American people are ignorant of the facts in the case. Their journals rarely take the trouble to do justice to this country, and on the seal fishery question they are carefully and systematically misled by the interest of parties, and yet accurate information is accessible if any one cares to have it. A fine elaborate report on the subject was issued by the Census Department in 1884, before the matter was involved in the dense clouds of prejudiced declaration that now obscure it. But most of the allusions to the seal question that appear in America entirely ignore the officially authorized conclusions based upon careful study and aim only at serving the interests of the Alaska Commercial Company.

This lucrative business is entirely in the hands of the Alaska company. No British sealer ever approaches the breeding grounds, but when the breeding season is over a vast congregation of seals disperses itself over an enormous area in search of food. The Victoria sealing fleet roams over that area and takes its chances of encountering single seals. It is this catching seals in the open sea which the Americans endeavor to stop by asserting their preposterous territorial rights over the Pacific ocean and by arbitrary high-handed action.

Their argument, so far as it can be put into intelligent shape, is worthy the most rigid school of the British game preserver. The seal is a wild animal if there was ever was one, with the peculiarity that for several months of every year it congregates upon certain American islands and places itself wholly in the power of the American hunters, who have nothing to do but hit it with a club.

They kill annually just as many as they think can be destroyed without risking the extermination of the species, and then try to assert exclusive rights over all that they are good enough to spare. Seals can never be in any danger of extermination by being captured on the high seas any more than herrings are by fishing.

Americans have it in their power to rob the world of its seals by indiscriminate slaughter, and the only check upon them is that they also destroy their own industry and will be compelled to dispense with sealskins. If they choose to do that we are helpless, but they cannot be allowed to monopolize the seals by claiming property in the high seas and all they contain. If they show a reasonable spirit of compromise it would be a good thing to come to some arrangement—not for a closed season which would be inappropriate to the conditions of the case, but for closure during the breeding period.

THE WHITEWASHING SCHEME.

Yesterday the House of Commons took up the report of the committee on privileges and elections on the case of Sir Hector Langevin, and in a day or two we shall know how far the Tory majority is prepared to go in the direction of condoning political immorality. There is only two much reason to expect that the majority report, practically whitewashing the ex-minister, will be adopted; though we believe that it will be swallowed with great difficulty by some of the more respectable men of the Tory party. Our Ottawa special to-day mentions a rumor that Dr. Bergin will present an amendment censuring Sir Hector, and we find that the Mail's Ottawa correspondent recently reported eight Conservative members as being opposed to the majority report, on the ground that it let the ex-minister off too easily. It is probable that the opinions of these eight, whose names are not given, will be voiced by Dr. Bergin's amendment. The opposition of the eight, however, will not be sufficient to prevent the majority report from going through, and it is probable that even such an amendment as they may propose will fall far short of dealing with Sir Hector as his offences deserve.

The ground taken by Mr. Girouard in presenting the report is in itself cause for suspicion that the Tory majority is simply bent on a whitewashing scheme. The chairman of the committee seeks justification for Sir Hector in the statement that Mr. Mackenzie when Minister of Public Works found it necessary to ask Parliament to vote larger sums for certain works than were specified in the contracts. This looks like an insult to the intelligence of the House until we reflect on the character of the Tory majority, which renders explicable the use of such an argument. Mr. Mackenzie may have found the cost of some public works increased beyond the contract terms, but no person ever charged that any portion of the extra sums voted by Parliament found its way into the Liberal election fund. Nor had Mr. Mackenzie any such bosom friend as Thomas McGreevy to supply a friendly contracting firm with departmental secrets and enable them at the same time to "euchre" other firms and bleed the country to the extent of hundreds of thousands of dollars. Mr. Girouard's arguments may content the Tory majority, but it will sound lamentably weak in the ears of the public.

Setting aside all higher considerations for the moment, the desire to stand well with the world outside should be a sufficient incentive to Parliament to deal honestly with Sir Hector's case. How a whitewashing measure will be regarded in England is shown by the following cable dispatch from London: "The British press continues to comment freely upon the Canadian scandals and is practically unanimous in declaring the disclosures to be amongst the most discreditable known in recent political history. It is thought they cannot fail to injure ministerial prospects. The majority report in the Langevin-McGreevy case meets with little sympathy. The St. James Gazette, a rabidly Tory paper, says it is a most deplorable thing for the country to suffer under the infliction of ministers like Sir Hector Langevin as under the disgrace of politicians like McGreevy." Nothing short of the severest condemnation and punishment of such men as Langevin and McGreevy can rehabilitate our political reputation, and such a measure cannot be expected from the present Government and Parliament.

RUSSIA AND ENGLAND.

Regarding the late British naval picnic on Mitylene, we are now told that the Russian ambassador at Constantinople has informally advised the British minister that the alleged occupation of Sigri by the British forces does not in any way concern Russia. The Russian ambassador at Berlin has also taken pains to inform Von Caprivi that Russia disclaims any special privilege in the passage of the Dardanelles. This is as might have been expected. Indeed it was predicted by a writer on the European situation that Russia in the event of a roar from John Bull would assume this very attitude. Russia is not yet ready to fight, nor, in fact, may it be supposed that she cares to, provided she can secure the relaxation of the treaty which closes to her the free passage of the Dardanelles. The following article in the St. Petersburg Novosti, evidently inspired, ought to convince England, if any reliance can be placed in Russian professions, that her uncompromising support of the "sick man" is not sound policy. Says the Novosti:—

The empire of Russia is a territory too extensive for her to desire to add to it by the conquest of India. If she is forced to undertake the enterprise at some future date it could only be an act of retaliation for the hostility shown by Great Britain to the Czar's government in Europe. On the other hand, should Great Britain renounce her anti-Russian policy, she would not have to fear Russia as regards India.

This is little better than a threat. Let me alone in Europe, says Russia, in effect, and I will let you alone in India. And England, it would be supposed, should accept the proposition. When it shall have been demonstrated that the Driebund is not strong enough to resist Russian encroachment it will be time enough for England to interfere. England cannot afford to oppose Russia in Europe at the expense of turmoil in India and perhaps the loss of that possession.

EDITORIAL NOTES.

Says the Colonist's Ottawa report: "Contrary to expectation the Government has decided to grant subsidies to a number of railways this year." Which simply means that the Government has decided to further utilise one of Sir John Macdonald's favorite campaign instruments. Another general election is not far off.

Premier Mercier has decided not to stand out against Lieut.-Governor Angers' request that a royal commission be appointed to enquire in the Baie des Chaleurs scandal. Accordingly a commission has been issued appointing Judges Baby, Jette and Davidson to conduct the investigation, and a full and impartial enquiry may therefore be hoped for. Further light is thrown on the Premier's action in consenting to the commission by the following Quebec dispatch:

A ministerial caucus was held at the parliament house last night. Almost all the old pillars of the National party responded to the call of the president. After the matter of the Baie des Chaleurs railway scandal and the Lieut.-Governor's action thereon had been considered it was decided to accept the commission demanded by the Lieut.-Governor, and Premier Mercier so announced. The announcement was received with considerable enthusiasm, although many of the Liberal members present were of the opinion that the Government should have held out to the last, and rather appealed to the country than give in to the Lieut.-Governor. A petition asking the Lieut.-Governor to call Parliament together at once was almost unanimously signed.

The Empress of China.

The C.P.R. steamer Empress of China was sighted about 3 o'clock this afternoon coming in from the Orient. She has 99 chinamen for Victoria and a good large cargo of freight for different points. The Victoria mail and passengers were brought in by the steamer Standard.

No Luxury for Chinese Soldiers.

Featherbed soldiers will not do in China; Yih, the Tartar general of the Hehiungkian territory, being lately ordered by Imperial decree to make the annual military inspection, pleaded indisposition and requested to be allowed to ride in a sedan chair instead of on horseback. The Emperor replied that no military official is premitted to ride in a chair, and that the request could not be granted. In compliance with this edict the Nanking Viceroy has issued an order that all the military officials in the provinces under his control must henceforth appear in public on horseback.—London Daily News.

Le Minstrel tells a story of Franz Liszt who was sitting in his armchair in dressing gown and slippers one evening ready for work and inviting inspiration. On the floor above, in the apartments of a banker, a noisy musical soiree was in progress. The keys of the piano, brutally treated, seemed to be flying to pieces and suffering as much as the master himself. Polonaises had succeeded waltzes, and nocturnes had followed polonaises, when the door of the salon opened and Liszt entered, still wrapped in his dressing gown. Imagine the astonishment with which this brilliant assembly was filled by this apparition, as strange as unexpected! But to the revered master everything was pardoned, even eccentric behaviour; and all watched his movements with curiosity. With slow steps Liszt walked towards the piano, and the young key-pounder who was sitting at it quickly left his place. Liszt sat down at the instrument carelessly swept his fingers over the keys as if to prelude, then, suddenly shut down the cover and put the key in his pocket. And immediately, with the same tranquil air with which he had entered, he went out and returned to his room, where he could work at ease.

One of the conditions of the Ontario Jockey Club is: "It is absolutely necessary that a trainer should notify the clerk of the scales, thirty minutes before the time fixed for a race of his intention not to start." This would work well here.

The Late Mr. Green.

The funeral of the late Mr. A. A. Green will take place on Thursday afternoon at 2:30 from the late residence of the deceased, and will proceed to the Reformed Episcopal Church, where the services appropriate to the occasion will be read. The flags are flying at half mast to-day out of deference to the deceased.

A Strong Wind.

The Olympian had a deal of trouble getting away from the wharf this morning, as a strong wind blew directly towards the wharf, which made it very difficult for the steamer to get out into the stream. After the services of the tug Phantom had been engaged, the big boat got away at half-past nine, over an hour late.

A Fresh Hackman.

There is a young man engaged in hack driving who should receive the attention of the police. On Sunday afternoon while driving around the Hill he got off the box into the body of the cab and allowed the horses to go along at a pretty lively rate by themselves, making everybody clear the way. He is altogether too "fresh" and should be taken down a little.

Licensing Court.

The licensing court sits to-morrow at noon in the police court room. The principle business to come up is the application of Mrs. Bertha Hemans for a transfer of the license held by her for the Standard theatre, to John Cort. The case came up at the last sitting of the court but was postponed on account of the magistrates wishing to have a full court before rendering a decision.

The Annual Report.

The annual report of the B. C. Board of Trade has just been issued and will be ready for distribution in a few days. As usual it is full of useful information regarding the resources of the Province, the custom and other returns. Those wishing to obtain copies to send to friends can either send the addresses of their friends to the secretary and he will forward them, or they can obtain them on application.

For Rivers Inlet.

The steamer Princess Louise, Capt. McCulloch, left at 10 o'clock this morning for Rivers Inlet, on a special trip to bring down the balance of the salmon pack from the canneries at that point. She took up two white passengers, J. Bewes and D. Lavery, and a number of Indians. She had a small amount of freight. The Louise will return in time to make a regular trip to the north on the 1st of October.

A Cottage Residence.

Captain Charles Spring is building a handsome cottage residence in James Bay, the contract having been signed to-day by contractor Charles Roberts; price in the neighborhood of $4000. The design, which was drawn by Mr. John Teague, is somewhat original, and promises a pretty residence. The accommodations include basement, parlors, reception, dining and several bedrooms beside the usual offices

Did Not Appear.

The name of John S. Clark was three times lustily called at the door of the police courtroom this morning, but no Clark materialized. Sergt. Levin made affidavit that he had personally served Clark with a summons to appear at the court and answer to a charge of carrying a pistol with intent to do bodily harm. Sergt. Walker asked that as the summons had been disobeyed a bench warrant should be issued, which was accordingly done.

Norris-Lawson.

Mr. Jno. F. Norris, of the Colonist editorial staff, was last evening married to Miss Marianna Lawson, daughter of Mr. H. Lawson, editor of the Colonist. The ceremony was performed at the residence of the bride's parents in the presence of the relatives of the principals. Ald. H. A. Munn acted as best man and Miss Nellie Lawson as bridesmaid. Rev. P. Jenns was the officiating clergyman. The happy couple left this morning for Comox, where they will spend their honeymoon.

The Famous Innes Band.

The famous Innes band, of New York, has been engaged to play during the Tacoma exhibition, for the small guarantee of $15,000. Mr. Pfeirdner endeavored to induce the band to come to Victoria at the close of its Tacoma engagement, but a guarantee of $500 was asked for one night. With the seating capacity of the theatre here, such a guarantee was impossible; if any profit were expected unless extravagantly high prices were asked. These would not be given. The band's engagement closes October 10th.

Not Yet Caught.

For some days past a detective has been hunting the saloons and boarding houses of this city, looking after a notorious horse thief named MacDonald, who lately distinguished himself in Montana, and who is believed to be in this city. For Public Documents.

A very handy file for public documents has been received from the East for the vaults in the clerk's office at the City Hall. It consists of a large frame having eighty compartments, each one lettered and numbered, and which, by an ingenius device, will hold documents and papers so that they can be easily withdrawn when required, or extra ones added without disturbing the existing order.

Still Going.

The success of Mount Tolmie Park is clearly established. The demand for lots continues unabated. The guarantee to erect 200 houses gives a substantial character to the property and assures investors of an unlimited profit. The houses to be built are of a superior class to structures usually obtained at the same cost. The purchasers include many well known citizens of the better classes and the high character of the neighborhood is fully assured. Watch it grow!

A False Report.

The report telegraphed from Port Townsend, that a number of Chinamen had been landed at Point Wilson by the steamer Burt, of this city, is pronounced by the owners of the steamer to be a malicious untruth. Chinamen from Victoria may have been landed, for it is notorious that several American crafts are engaged in the business, but the Burt is better employed and at the time referred to was conveying a party of prospectors to the West Coast. If the manufacturer of the telegram can be got at, he will be proceeded against for libel.

The Wolff Family Concert.

The above concert, which takes place on Wednesday, 30th Sept., already promises to be a great success, and with such zealous workers as the Ladies' Auxiliary it cannot fail to "pan" out a decent sum for the Jubilee Hospital. The concert will be under the direction of Mr. Clement Rowlands, who has made himself deservedly popular with Victorians, and those have not heard the Wolff family must avail themselves of this opportunity. Mr. R. B. McMicking is treasurer. Tickets and plan at C. A. Lombard & Co.'s, where seats can also be reserved.

The Mount Tolmie Sale.

The sale of lots and houses at Mount Tolmie Park opened at 9 o'clock this morning. At the hour appointed a large number of persons were in waiting to make selection of favorite locations, and during the first hour nearly fifty lots and a proportionate number of houses were sold. The liveliest interest is manifested and the class of people making selections is evidence that the thriving new suburb will have a large and highly respectable population. Lots are still selling and will undoubtedly continue in sharp demand until the limited number offered are all sold.

Rapid Extension of Business.

Mr. F. W. Garland, proprietor of the Balmoral Restaurant on Broad street, has leased the entire upper portion of the Kirk block on Douglas street, and two of the largest of the stores. The latter he will throw into one spacious dining hall, to be handsomely and luxuriously furnished as a first-class restaurant. It is Mr. Garland's intention, now that the Balmoral has gained such a popular stand, not only to hold that position, but to improve it, and have it on the best possible basis by the time he enters his new and larger quarters. The upstairs will be furnished as a hotel, and on the same principles on which the dining room is to be conducted. It is now but a few months since Mr. Garland opened the Balmoral, and experience has taught him that the public appreciates a good thing.

Police Court Notes.

A large crowd of natives interspersed here and there with a white man, gathered this morning at the police court room, the principal attraction being the case of Indian Johnnie, charged with assaulting David A. Oglevy, a night watchman. The prosecutor appeared in court with a face which bore unmistakable evidence of having been badly damaged by recent and severe contusions. Some fun was caused by a war of words, in the melodius Chinook dialect, between prosecutor and prisoner, the effect of which was spoilt by His Honor declaring that the eloquence was wasted, as the court failed to understand a syllable of the same. An interpreter was obtained, when it was shown that a row had occurred between some Indians and the prosecutor. Indian Johnnie was proven to have been a leading figure in the assault, and was fined $50 and $3 costs or three months in jail.

Seven drunks pleaded guilty to the charge, and were severally ordered to pay $5 and $1 costs.

Patrick Carrigan was charged with assault, but as the case had been settled it was dismissed, the costs of summons being forfeted.

James Elliot, charged with assault on a police officer, was discharged.

CASE OF THE M'LEANS.

Both Americans and can Have no Claim on This Government.

In consequence of the questions put on the floor of the House of Commons concerning the cases of Capt. Alex. McLean of the schooner Lewis, and Dan McLean of the Webster, a report on the cases has been asked for by the Minister of Collector Milne. Said report has been forwarded and will probably be fully satisfactory.

It is understood that relatives of Alex. and Dan McLean have endeavored to get the Dominion Government to take action in the matter of the seizure of the Lewis and the arrest of the captain and the shooting of Dan as both are natives of Nova Scotia, but it is evident that they are not aware of the facts of the case. The schooner Lewis, formerly the Ada, of this port, is now an American vessel, and as, according to American law, her master must be an American citizen, it is more than likely Capt. McLean has adopted the republic as his country. When these facts are made officially public, there is no doubt the case will be dropped.

THE LICENSING COURT.

Standard Theatre License Forfeited---Meeting Said to be Illegal.

Messrs. A. L. Belyea, police magistrate; Robert Ward, J.P., and Ald. Jos Hunter sat to-day at the City Hall as a licensing court. Ald. Hunter presided. The only business brought before them was the application of Mrs. Bertha Hemans for the transfer of the Standard Theatre license from her to John Cort. The application was refused, and it was intimated that the collector would be notified not to renew the license. The refusal of the transfer was based on the ground that Mr. Cort had no interest in the city outside of the license, not being a resident of Victoria, and that he had not proved himself a fit and proper person to hold a license.

After adjournment it was discovered that the court had sat one day too soon, as the date should have been Wednesday the 23rd September, instead of to-day, and in consequence another meeting will be called for to-morrow.

Victoria's Coming Show.

Indications are that Victoria will score an immense success by her big show this year. The street car lines are laid almost to the gate, and will be completed out the whole distance to-morrow. President Higgins said it should be done, and it will be, in time. Workmen commenced on the sidewalk from the city limits this morning. Another great improvement has been effected through the generosity of Mrs. Lee, Messrs. Elford & Smith, Wilson and Casanave in giving ten feet of land on either side, which enables the association to have a seventy-five foot drive from the main road down to the fair grounds. The contractors are now taking down the inside staging of the building and the painters are expected to be finished with the painting by Thursday night, so as to leave the building ready for exhibitors by Saturday. Contractor McLellan has promised to have the tin work on the towers done by Saturday night. The stables are in readiness to receive stock. Among the exhibitors to make a commencement are the Albion Iron Works and Weiler Bros., whose men began work this morning.

Board of Trade Building.

The building committee of the Board of Trade met this forenoon at 11 o'clock to consider Mr. Renouf's suggestion in regard to the formation of a joint stock company for the erection of a suitable building. There were present President T. B. Hall, Robert Ward and A. B. Gray. The question was discussed and the suggestions endorsed. The secretary was instructed to advertise for competitive plans, and the notice appears in another column.

Obstructing the Sidewalk.

The merchants of this city are just allowed 24 hours to remove their cases from the sidewalk after they arrive and the same time is allowed them to remove cordwood, with the object of keeping the streets from being obstructed. The Chinese population seem to be governed by a different law, for from the beginning to the end of the year they obstruct Government street with baskets, boxes and everything else without molestation.

The Victorian.

It is understood that the Union Pacific steamer Victoria will start on her regular route between here and Tacoma tomorrow in place of the Olympian. She has been put in thorough order since she was last here, her machinery and boilers not having been satisfactory. It is expected that she will be over at 3 o'clock to-morrow morning and leave at 7 o'clock.

Social Dance.

An informal social dance will be given at Oliver's Hall to-night, this being the first of the season. Mr. W. Deasy has charge of the arrangements, and Jas. Austin's orchestra has been engaged. Refreshments will be provided, and a good time may be looked for. *

Excursion to Tacoma.

Mr. G. M. Stanton, of Tacoma, is in Victoria making arrangements for an excursion from here to Tacoma, including tickets to the exposition. It is understood that very low rates will be made, so that the trip can be enjoyed by everybody.

For Westminster.

The Canadian Pacific Navigation Co. will run the steamer Islander on an excursion trip Thursday to New Westminster, for the purpose of enabling Victorians to see the regatta and return the same day. Reduced rates will be given.

A Shock at Seattle.

A letter received from Seattle this morning states that on Saturday morning a smart shock of earthquake was felt there. It was at about 10 o'clock in the morning that the quake occurred, and no damage was done.

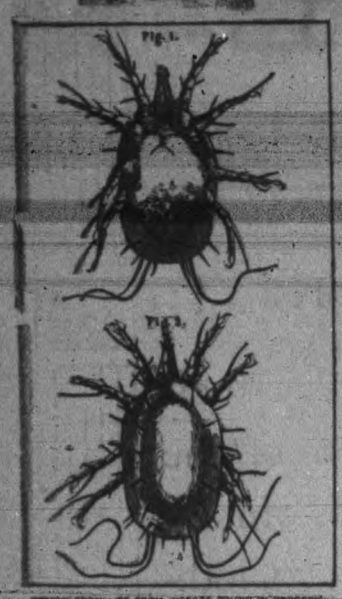
CHINESE - SUGARS; - WHAT - IT - IS - WE - MAY - BE - EATING!



DRAWN FROM LIFE FROM INSECTS FOUND IN GROCERY

In view of the introduction to the Province recently of considerable quantities of Chinese Sugars, it may be as well that the Public should be informed, on the very highest possible authority, of the danger that may be attendant upon their use.

Professor Cameron, Public Analyst, Dublin, a gentleman who has made it his special business to examine all kinds of Foreign Sugars, Refined and other, says that certain kinds of them should never be used. He states that they contain great numbers of DISGUSTING INSECTS, which produce a DISGUSTING DISEASE. Their shape is very accurately shown in the accompanying cut, which is magnified two hundred diameters. Figure 1 is the under side, and Figure 2 the upper. The Professor's description is as follows:—

"This insect ('the Acarus Sacchari') is a formidably organized, exceedingly lively, and decidedly ugly little animal. From its oval-shaped body stretches forth a proboscis terminating in a kind of scissors, with which it seizes its food. Its organs of locomotion consist of eight legs, each jointed and furnished at its extremity with a hook. In the Sugar its movements from one place to another are necessarily very slow, but when placed on a perfectly clean and dry surface, it moves along with great rapidity." He adds that the number of "Acari' found in Unrefined Sugar is "sometimes exceedingly great, and in no instance is the article quite free from either the insects or their eggs." He further says:—"The Acari Sacchari" do not occur in Refined Sugar of any quality, because they cannot pass through the charcoal filters of the Refinery, and because Refined Sugar does not contain any nitrogenous substance upon which they can feed."

COOLIE - MADE - AND - ALL - UNREFINED - SUGARS - SHOULD - NEVER - BE - USED!

Besides its being impossible for Canadian Labor to compete with Coolie Labor, rice fed and under paid, it is well known that Eastern Countries have always been the breeding ground for leprosy and all other loathsome and horrible human diseases, and hand labor there is so cheap that there is no inducement to employ machinery. Home Refined Sugar, on the contrary, is never touched by the human hand from the moment it reaches the refiner until it leaves him a perfectly safe and purified article.

Use, therefore, Only Home Refined Sugars; They Are Absolutely Unadulterated, Pure and Cheap.

BALMACEDA'S LETTER.

The Dead Dictator Said His Generals Deceived Him.

New York, Sept. 22.—A Valparaiso special says that ex-President Balmaceda, of Chili, shot himself through the temple in his room at the Argentine legation in Santiago on Saturday morning. About 8 o'clock a pistol shot was heard in Balmaceda's room, and Senor E. M. Zeburi, rushing in, found that the ex-president had just put a hole into his brain. The room was notified and a committee immediately went to the house and viewed the body.

Balmaceda left a letter to his mother, also a statement to the Herald. As almost the last declaration of a dying man they are of especial importance. He said:

"I staked all during the past eight months with the firm conviction that I was right. I had no one in the army on whom I could place reliance. My generals were false to me. They fled through the war. Had my orders been obeyed, I believe the battle of Concon would have resulted in a decisive victory against the enemy.

"My heart all through this trouble has been with Chili. I sought to rescue my country from foreign domination. I strove to make her the first republic in America. My enemies say that I was cruel. Circumstances compelled me to sanction certain acts, but many bad deeds have been attributed to my orders that were never known by me until they had been committed.

"Until the final battle of Placilla I had strong hopes of triumphing over my foes. Victory was assured by my generals, Alcorrea, Barbosa and Viel. They all lied. I know those who only pretended friendship for me because of the money that was to be gotten out of me, and the money that I have in my possession is what my wife gave to me on the night of 28th August.

"My Minister, Egas, many times offered me good advice. He urged me to make peace with those opposed to me and to retire from Chili. I did not heed his wise advice, for I thought he was under the influence of the Junta, who were then refugees in the American legation. All through the trouble my closest advisers were always opposed to any measure for peace."

Another letter was found, addressed to Senor Don Zeburi. In it Balmaceda says:

"When I saw the persecutions directed against me by persons who had supported my administration I came to the conclusion that the only way to put an end to it was to take my life, for I was the responsible one. Adios my good friend. Give my farewell to my wife and children."

The Junta has the Argentine legation guarded to prevent any attack on the part of the population, but everything is quiet at Santiago to-night.

Balmaceda's body has been removed to the general cemetery. It was accompanied by members of the family and their friends.

The widow of the dead ex-president was informed of the tragic ending by her brother, Fresnigo Torro. There is a guard stationed at the cemetery and an intendente is keeping order.

Rev. John McNeill.

This distinguished London divine, who is called the "Scottish Spurgeon," preached in Toronto on the 13th instant. As none of the churches would hold the congregations which were expected to be present, the Mutual street rink was secured, and was packed to its utmost capacity, about 7000 being present in the evening and large numbers turned away. The services were on behalf of the East church, and Chalmers church. Mr. McNeill, on these occasions maintained the high reputation which he has made since he took charge of Regent Square pulpit. He is a man of the people, and worked as a railway official, and from the ability which he displayed as a young man at religious meetings, he was encouraged to go to college and study for the ministry. His first charge was in Glasgow, where he soon attracted notice as a pulpit, prayer and evangelist of extraordinary power and ability. Since he went to London his success has been greater than anyone expected. The Congregationalists, who are strong in England, made proposals to him to assume the pastorate of a large tabernacle in one of the districts of London, where evangelistic work was much wanted, but the Presbytery would not consent. Mr. McNeill was born in Scotland, but his father came from the North of Ireland, in the neighborhood of Belfast, and is a true type of the Scotch-Irish settlers. Irish Presbyterians have been called Dissenters, but they were never Dissenters. Their church is a daughter of the mother church of Scotland, which was established by the law of the realm.

Delighted With Victoria.

Mr. Beaumont Morice, LL. B., M. S. A., Barrister-at-Law, Middle Temple, London, England, Professor of Law and Jurisprudence, Birbbede Institute, Vice Chairman Erith School Board, left on Sunday morning by the steamer Yosemite, en route for England. Speaking of his visit here, and the object of thereof, Mr. Morice expressed the pleasure he had derived during his stay in this beautiful city, and spoke of the great kindness shown him by numerous persons towards enabling him to trace the record of his birth, which occurred on board his father's ship, the Harpooner, on arriving with letters for the Hudson's Bay Co. in 1849. Mr. Morice had been much struck, not only with the beauty, but with the evident progress and prosperity of Victoria, and anticipates for it an important future. As a member of an educational board in England, he expressed himself much pleased with an inspection of the common and High Schools, the system of which appears to have been planned and to be effectually carried out. He also spoke of the good work being done by the Y.M.C.A., and the welcome offered by it to the many young men coming as strangers to the city.

MEMORANDUM OF ASSOCIATION

Under the "Companies Act, 1890."

The Immigration, Investment and Improvement Company of British Columbia (Limited Liability).

WE, THE UNDERSIGNED, John Grant, Joshua Holland, Henry Alexander Munn, William H. Bone, John Nicholles, of the City of Victoria, in the Province of British Columbia, Paul Pfordner, of Chicago, State of Illinois, U.S.A., desire to form a company under the "Companies Act, 1890."

1. The name of the Company shall be "The Immigration, Investment and Improvement Company of British Columbia (Limited Liability."

2. The principal place of business of the Company shall be at the City of Victoria, in the Province of British Columbia.

3. The capital stock of the Company shall be five hundred thousand dollars ($500,000) divided into five thousand (5000) shares of one hundred dollars ($100) each.

4. The time of the existence of the Company shall be fifty (50) years.

5. Five (5) trustees shall manage the concerns of the Company for the first three months, and their names are:—John Grant, Joshua Holland, Henry Alexander Munn, William H. Bone, and Paul Pfordner.

6. The objects for which the Company is formed are:—

(a.) To organize and manage excursion parties to the World's Columbian Exposition at Chicago in 1893, and to and from other places and points of interest, to make contracts with railways, transportation and other companies and persons for carrying, transportation, care, accommodation and board of such excursion parties and their baggage, and for the insurance against loss by accident of the individual members of the same.

(b.) To promote and secure the representation of the natural and manufactured products of the Province of British Columbia at the World's Columbian Exposition at Chicago in 1893, and at such other expositions and fairs as the Company may deem advisable.

(c.) To carry on business as capitalists, financiers, concessionaries, brokers, commission agents and merchants, and to undertake and carry on and execute all kinds of financial, commercial, trading and other operations, and to carry on any other business which may seem to the Company capable of being conveniently carried on in connection with any of these objects, or calculated directly or indirectly to enhance the value of, or facilitate the realization of, or render profitable any of the Company's property or rights.

(d.) To guarantee or become liable for payment of money, or for the performance of any obligations, and generally to transact all kinds of guarantee business, and also all kinds of trust and agency business.

(e.) To buy, lease, exchange or otherwise acquire any lands or other property, corporeal or incorporeal rights, franchises or privileges, and to sell, lease or otherwise deal with the same in any lawful way the Company may deem advisable.

(f.) To establish agencies of the Company wherever the Company may deem it advisable, in order to extend and render profitable the business of the Company.

In testimony whereof the parties hereto have made, signed and acknowledged this memorandum of association (in duplicate), at the City of Victoria, in the Province of British Columbia, this 15th day of September, A.D. 1891.

Made, signed and acknowledged by the said John Grant, Joshua Holland, Henry Alexander Munn, William H. Bone, John Nicholles, and Paul Pfordner, in the presence of D. W. Morrow, Notary Public, B.C.

THE CENSUS.

TO THE EDITOR:—As the city is having the census taken, and it has now to provide school accommodation for all children between 6 and 16, would it not be wise to embrace that question, "How many children between 6 and 16?"

WATCHMAN.

TEARING UP THE SIDEWALK.

TO THE EDITOR:—Among the many high-handed acts of the Tramway Company, the tearing up of the plank sidewalk along the Esquimalt road in places is not the least.

When the Hon. Mr. Higgins and his satelites procured their charter to extend their line to Esquimalt for the accommodation of the residents of that town, did they also obtain the right to tear up the sidewalk, which did duty for pedestrians for years, and to leave it so, to the discomfort of those who still use it? The people of this community, once under the fatherly care of the hon. president of the company, resent strongly the inconvenience caused by them in leaving a stretch of three hundred yards or more between Point Ellice bridge and the railway crossing in a state of mud and slush. The tramway is a necessity; but it should not be allowed to trample on the rights of the residents of Victoria West, or any place, for the cost of relaying what they had destroyed. If it is intended to compel the residents to use their line, it is a mistake.

VICTORIA WEST.

HOW THEY DO IT IN VICTORIA.

TO THE EDITOR OF POST-INTELLIGENCER: * * * We have in this city an electric car system, controlled by prominent political men. The president of this company is the speaker of our provincial legislature, and the attorney general I think, is second in command.

Now what I want to complain about is this. There are great improvements taking place in the grading of some of our streets, more especially the street on which the attorney general has his residence. This street as far as I am aware, was in an excellent condition for ordinary traffic, but was hardly suitable for laying down a car line. Now it seems very strange that the council should go to work and grade this street, lay water pipes and sidewalks at an enormous expense when some of the streets in the busiest part of the city are requiring repair in the very worst kind of a way. I notice today the rails and poles are on the ground and all that the car company require is to place the ties on the graded road, lay their rails and then they have a car service running for the convenience of the attorney general. But who pays for all this grading? Why the poor taxpayer of Victoria.

This is not the only instance of the kind. Numerous streets in and around the city have been and are being graded for the convenience of the car company at the expense of the tax-payer.

Another thing. The conductors and motormen of this company had a strike a couple of weeks ago. The point of contention was as to whether the men should work 12 hours per day or not. The car company made no concessions, but instead took on an army of green hands who knew nothing regarding the running of electric cars. It was a common occurrence to see three of four cars off the track at a time. Life was not safe, as it was about an even chance that a car would jump the track at every corner instead of making the turn. Especially dangerous was it to take a trip to Esquimalt, where there is an elevated track part of the way, and if the car was to leave the rails at that point it means certain death to some of the passengers. In a city like Seattle I feel sure this kind of thing would not be tolerated. The first thing the car company knew they would have their charter cancelled.

You will pardon me asking you the favor of inserting this in your columns, but as the papers here appear to be controlled by the same parties who are interested in the extension of the car system, I am afraid the chances of ventilating this in any of our own papers are very small. Yours truly,

SPEAKER.

Victoria, Sept. 16.

Our Public Schools

Are the main-stay of our republic. In them are being cultivated the minds which are to be our future law-makers and leaders in every walk in life. How essential it is that these minds should be united to strong healthy bodies. So many children suffer from impurities and poisons in the blood that it is a wonder that they ever grow up to be men and women. Many parents cannot find words strong enough to express their gratitude to Hood's Sarsaparilla for its good effect upon their children. Scrofula, salt rheum and other diseases of the blood are effectually and permanently cured by this excellent medicine, and the whole being is given strength to resist attacks of disease.

Census Proclamation.

The undersigned are commissioned by the City Council of Victoria to retake the census of this city and to give an honest and complete report of *every resident*, his family, children, servant, lodgers and s. f., and will start in on that important work with a full force of well known business men, on Wednesday, September 23, Thursday, Sept. 24, and Friday, Sept. 25.

Every one is requested to prepare and to answer kindly the few questions necessary for the complete success of the undertaking, and to make correct and truthful statements.

Her Face Her Fortune,

Is commonly said of famous beauties. She who uses with artistic taste Wisdom's Famous Robertine has fortune in the possessing of a complexion to which nothing but the blush of the rose or the freshness of the lily can be compared. Death of a Young Composer.

NEW ORLEANS, Sept. 21.—M. J. Black, a talented young musician, who wrote most of the music for the "Khedive," the comic opera recently produced in New York, died last night. He was 26 years old and a native of Ireland.

Purify

The importance of keeping the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The taint of scrofula, salt rheum, or other foul humor is hereditary and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from the air we breathe, the food we eat, or the water we drink. There is nothing more conclusively proven than the positive power of Hood's Sarsaparilla to purify the blood. This medicine, when fairly tried, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. In its preparation, its medicinal merit, and the wonderful cures it accomplishes Hood's Sarsaparilla is **Peculiar to Itself.** Thousands testify to its success, and the best advertising Hood's Sarsaparilla receives is the hearty endorsement of its army of friends. Every testimonial we publish, and every statement we make on behalf of Hood's Sarsaparilla may be relied upon as strictly true in every respect.

Your Blood

If you need a good blood purifier or building up medicine, be sure to take Hood's Sarsaparilla. Further information and statements of cures sent free to all who address us as below.

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL

(Used principally for Gas and Domestic Purposes).

THE SOUTH FIELD COAL

(Steam Fuel).

THE NEW WELLINGTON COAL

House and Steam (Coal) are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, a high Illuminating Power unequalled by any other bituminous Gas Coal in the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used by all the Leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL, which was introduced early in the present year, has already become a favorite Coal for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay, where ships of the largest tonnage are loaded at all states of the tide. Special dispatch is given to Mail and Ocean steamers.

SHERIFF M'MILLAN

Talks with a Winnipeg Reporter on the Census, Sealing, Etc.

Mr. J. E. McMillan, sheriff of Victoria, B.C., has been given leave of absence in the hope that a few weeks in the east will recuperate his failing health. He has been spending a brief season in Winnipeg, and left on Thursday, via the Great Northern express, for St. Paul. Mr. McMillan is one of the pioneer journalists of British Columbia, but has retired from newspaper work for some years. This was his first visit to the Northwest metropolis, and he was surprised to see such a substantial class of buildings here. The business blocks are superior to those on the Pacific Coast, but he thought the residences of Victoria were ahead of those in Winnipeg. In conversation with a reporter Mr. McMillan remarked that the horse car service of the street railway here was widely at variance with the apparent business sense of the citizens. He thinks there should be an electric system, even if overhead wires have to be conceded.

"I believe the Victoria people are dissatisfied with the figures of the late census!" suggested the reporter.

"Dissatisfied! That scarcely expresses their indignation. There is no doubt the work of taking the census in Victoria was bungled. Its population is almost universally computed at 20,000, while many believe it to reach 25,000. But what can be expected under the present system of selecting census enumerators! Men are not appointed for their adaptability to the particular work; but partisan hangers-on and political heelers are generally chosen, who do as little as possible and prolong the work to the extreme limit. There is such general disgust that it is almost certain the people of Victoria will undertake a new census, and I expect the work will have been accomplished ere I return."

"How are sealing matters on the coast, and is there likely to be any further trouble as a result of the attitude recently assumed with respect to a close season?"

"There will be serious trouble unless the Americans back down from the position taken. The present attitude of sealing affairs has materially affected the shipping interests on the coast. Had there been no close season ordered hundreds of additional men would have found work in the shipyards, as some 20 vessels would have been constructed during the summer. Seal fishing is profitable, therefore many are willing to risk its danger, and even to face the possibility of running amuck with the United States navy, sent north to protect and assert the alleged claims of that country."

Reports frequently come east of extensive smuggling on the Coast," remarked the reporter.

"I have no doubt. You must know there are many points along the Pacific Coast that are sparsely settled, and these offer every opportunity for successful smuggling, notwithstanding the watchfulness and alertness of the customs officials. Some of the Chinese are adepts, and quantities of opium are smuggled across. Of course Canada is also a sufferer, as considerable contraband and dutiable goods are surreptitiously brought ashore from the steamers fro mthe Orient."—Winnipeg Tribune.
